Career Objective

Computer Science undergraduate with strong fundamentals in Data Structures, Algorithms, and software development. Seeking an entry-level opportunity to apply problem-solving skills, contribute to impactful projects, and grow in a professional engineering environment.

Education

- **Pranveer Singh Institute of Technology, Kanpur** — Uttar Pradesh, India
  Bachelor of Technology – Computer Science and Engineering; CGPA: 7.7 — *2022 – 2026*
- **Bakshi Memorial Public School, Lalganj** — Uttar Pradesh, India
  Intermediate – CBSE Science; Percentage: 75.6% — *2021 – 2022*
- **Bakshi Memorial Public School, Lalganj** — Uttar Pradesh, India
  High School – CBSE; Percentage: 76.4% — *2019 - 2020*

Skills

- **Programming Languages:** C/C++, Python, Sql
- **Web Development**: HTML, CSS, JavaScript, Express.js, Node.js
- **Tools & Platforms:** VS Code, Git, GitHub, Postman, Google Colab
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming

Projects

- **Diabetic Retinopathy Detection: Tech Stack: React, Python, PyTorch, FastAPI** **(Ongoing)**
  - *Developed a diabetic retinopathy image classification model using **PyTorch** for accurate medical diagnosis support.*
  - Implemented a **multi-phase model approach** using baseline CNN and **EfficientNet-B3** architectures.
  - *Applied data preprocessing and augmentation techniques to effectively handle class imbalance and enhance generalization.*
  - ***Currently building a FastAPI-based backend pipeline to serve model predictions through secure and scalable REST APIs.***
  - *Focused on optimizing model inference to ensure faster and more efficient predictions during real-world usage.*

- **Pharma Care: Tech Stack: React, Node.js & Express.js, MongoDB, JWT** ***(December 2024)***
  - *Developed a full-stack MERN application to digitize handwritten prescriptions and improve readability for pharmacists.*
  - *Implemented secure **JWT-based authentication** with a predefined medicine database to reduce manual typing errors.*
  - ***Designed a responsive and interactive user interface with robust form validation for doctors.***
  - *Improved pharmacy workflow by delivering clean, typed prescriptions and minimizing misinterpretation.*
  - *Ensured **scalable backend architecture** with RESTful APIs, enabling smooth integration and future system expansion.*

Certifications

Mastering Data Structures and Algorithms using C and C++ – Udemy — Issued: May 2024 | Certificate Link
Learn C++ Programming – Beginner to Advanced (Deep Dive in C++) – Udemy — Issued: February 2025 | Certificate Link
Databases and SQL for Data Science – Coursera — Issued: March 2025 | Certificate Link
MongoDB Developer's Toolkit – CRUD Mastery – GeeksforGeeks — Issued: January 2026 | Certificate Link

Achievements

- Five-Star Problem Solver on HackerRank
- Earned a 500-day streak badge on LeetCode.
- Solved 550+ problems on LeetCode
